Flexroo

FLEXROO FOR SCHOOLS

AI-powered, curriculum-aligned learning practice at scale

THE CHALLENGE

Educational institutions face increasing demands to personalize learning. Teachers spend hundreds of hours annually creating worksheets and differentiating exercises for mixed-ability classes. Generic materials and unguided AI chatbots introduce hallucinations, safety concerns and off-syllabus content. School leaders lack visibility into performance and curriculum mastery across campuses, grades and subjects.

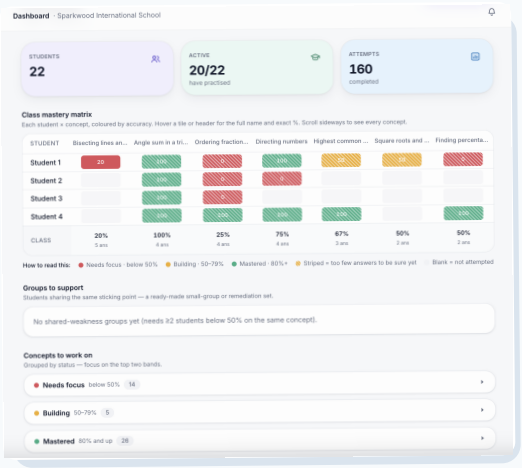

THE SOLUTION

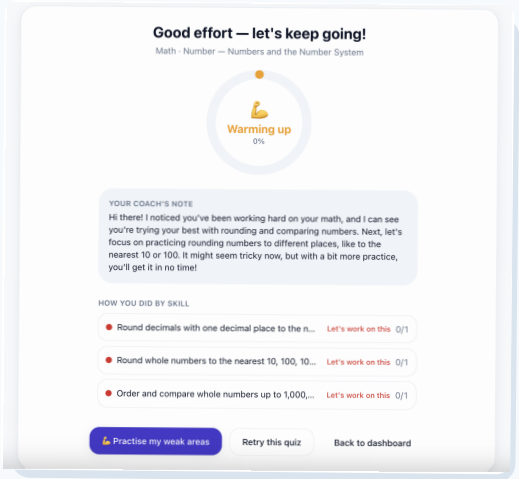

Flexroo transforms your exact curriculum into an enterprise-grade, concept-reinforcing, exam-aligned practice engine. A structured learning system extends high-quality practice beyond the classroom without increasing teacher workload.

For teachers & educators

More time to teach. Clearer signals to intervene.

1. **Workload reduction.** Less time preparing and differentiating worksheets.
2. **Curriculum fidelity.** Practice follows current classroom scope and sequence.
3. **Actionable insights.** Heatmaps guide targeted intervention.

For students & learners

Every mistake can move learning forward.

1. **Adaptive practice.** Fresh exercises by topic and difficulty.
2. **Embedded learning.** Qualitative feedback and worked solutions.
3. **Personalized skills map.** Strengths and revision priorities made clear.

Flexroo

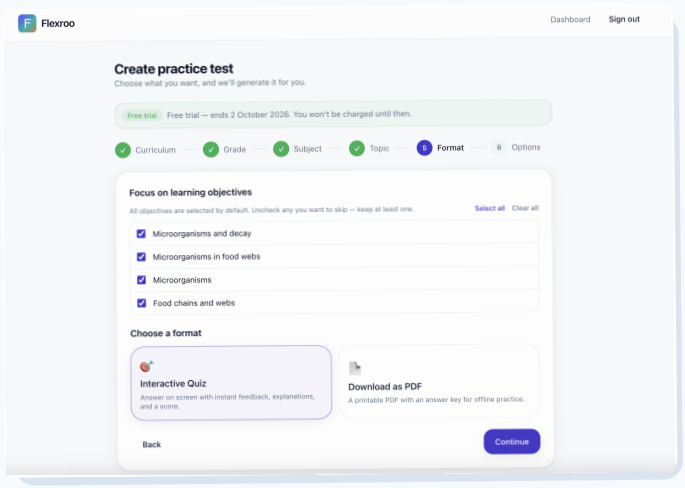

THE LEARNING EXPERIENCE

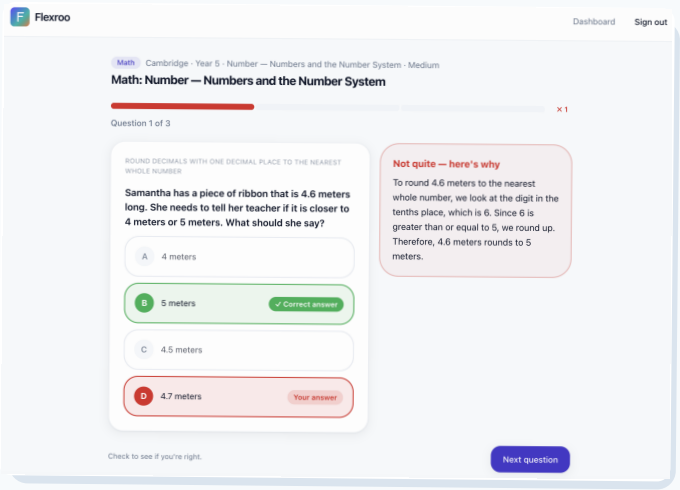

Practice that teaches. Feedback that guides.

Curriculum-aligned practice from creation to reflection

Create practice from your curriculum

1. **Strict mapping.** Cambridge, CBSE, UK, Australian and custom syllabi.
2. **Classroom fidelity.** Aligned to what is taught now.
3. **Exam alignment.** Concept-reinforcing targeted practice.

Make every mistake a learning moment

1. **Immediate feedback.** Non-punitive, qualitative guidance.
2. **Worked explanations.** Reasoning students can follow.
3. **Personalized revision.** Results reveal next priorities.

BEYOND QUESTION GENERATION

Flexroo's Intelligence Engine combines **curriculum alignment, question variation and reasoning validation**. Anti-hallucination guardrails and multi-agent reconciliation are designed to keep answer keys logically consistent with step-by-step worked solutions, improving pedagogical reliability.

Flexroo

LEADERSHIP AND SCALE

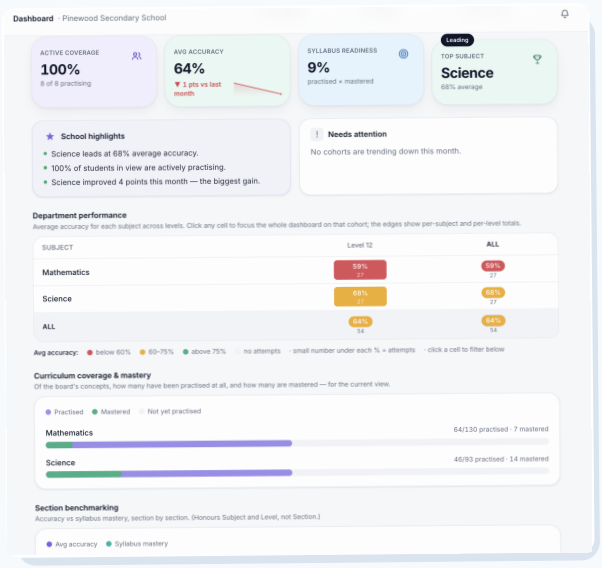

Academic intelligence across your network.

Visibility into performance, adoption and curriculum mastery

For school operators

See the bigger picture.

1. **Standardized practice.** One configurable layer across regions.
2. **Network-wide insights.** Track performance, adoption and mastery.
3. **Low integration friction.** Managed infrastructure and updates.

VISIBILITY INTO ACADEMIC INTELLIGENCE

Track performance, adoption and curriculum mastery across campuses, grades and subjects. Identify at-risk departments early, compare syllabus coverage against target pacing and support board meetings with timely academic evidence.

One practice infrastructure | Consistent curriculum | Actionable insights

READY TO TRANSFORM PRACTICE AT YOUR SCHOOL?

Give students targeted practice, teachers actionable insight and school leaders a clearer picture of academic progress.
